

Dog Trainer for Nintendogs®

Congratulations on your purchase of Dattel's Dog Trainer for Nintendogs®, within minutes you can be playing this fantastic game *your way!*

How it works:

Dog Trainer works by downloading specially created 'modified' game-save snapshots onto your Nintendogs cartridge.

Important: Because the Powersave will replace your existing save-game data on your Nintendogs cartridge make sure you are happy to lose your existing point in the game.

If you would prefer to be able to back-up your Nintendogs save first you should consider upgrading to Action Replay MAX for GBA & DS which allows you to have unlimited game-saves stored for Nintendogs and every other Nintendo DS game. Visit www.codejunkies.com for more info.

Getting Started:

1. Insert the Dog Trainer cartridge into the GBA slot on your Nintendo DS.
2. Insert your Nintendogs cartridge into the DS cartridge slot on the Powersaves cartridge.
3. Turn on your Nintendo DS handheld.

Choosing the right game:

This Dog Trainer cart includes Powersaves for the following games:

- SCREEN 1 - Nintendogs Dalmatian & Friends
- SCREEN 2 - Nintendogs Best Friends
- SCREEN 3 - Nintendogs Labrador Retriever & Friends
- SCREEN 4 - Nintendogs Miniature Dachshund & Friends
- SCREEN 5 - Nintendogs Chihuahua & Friends
- SCREEN 6 - ****BONUS**** Super Mario 64 DS

When the first screen loads you will be looking at Powersaves available for the *Dalmatian & Friends* version of the game.

Make sure you are using Powersaves for the version of the game you have. To change screen use UP and DOWN (or LEFT and RIGHT) on your directional pad to move the highlight onto the right arrow at the bottom of the screen. Now press button 'A' on your handheld to go to the next screen. You can use the left and right arrows on screen to change between all 4 screens.

Selecting and downloading a Powersave

Ensuring you are on the right screen for your version of the game (see above) highlight one of the available Powersaves and press 'A' on your handheld to download it. When asked to confirm, press START to download the save to your cartridge.
