

MAX DRIVE 160™ for XBOX 360™

User Information

Introduction

Congratulations on your purchase of Datel's *MAX DRIVE 160™* for XBOX 360™.

Connect *MAX DRIVE 160™* to your PC to load it with movies, music, and images to playback on your XBOX 360™. The ultra-fast USB 2.0 technology will ensure that even the largest of files transfer in minutes.

MAX DRIVE 160™ has the capacity to store loads of movies even at stunning High Definition and can really make the most of the exciting media player functionality added to the XBOX 360™ in dashboard K:2.0.5759.0.

Using *MAX DRIVE 160™*

MAX DRIVE 160™ is completely Plug-and-Play. Both your XBOX 360™ and PC will recognise the drive without the need to install drivers or software*.

*USB Mass Storage Device compatible operating system required.

On your PC

A couple of seconds after connecting the drive it will be assigned a new drive letter. Drag and drop files onto this drive just as you would any other drive. You can use any folders you like to organise your content.

Media	Supported Formats
Pictures	JPEG
Videos	H.264 (.mp4, .m4v, .mp4v, .mov,) 10 Mbps with resolutions of 1920 x 1080 at 30fps 2 channel AAC low complexity (LC) MPEG-4 (.mp4, .m4v, .mp4v, .mov) 5 Mbps with resolutions of 1280 x 720 at 30fps 2 channel AAC low complexity (LC)
Music	MP3, WMA

Full details on supported file types and specifications can be found on Microsoft®'s XBOX™ website at www.xbox.com.

On your XBOX 360

As soon as you connect the hard drive to your console you will be able to access content stored on it.

Using the XBOX 360™'s dashboard menu, open the 'Media' blade then choose 'Portable Device'. You should now see any folders on the *MAX Drive 160™*. Open any folder and then to choose a file to play.

For up-to-date information on you XBOX 360™'s media player capabilities check the XBOX™ website.

Precautions

MAX DRIVE 160™ is manufactured using on the highest quality components and has been designed to provide you with years of trouble-free operation. It is, however, a mechanical device with moving parts and as such care should be taken not to expose the drive to shock, or extremes of temperature or humidity.

Never turn the drive off whilst the disk is being accessed as damage to data or the drive itself could be caused.
